Software Engineering Immersive | General Assembly | *Remote*   December 2021 - Present
Completed 420+ hours of expert-led instruction in HTML, CSS, JavaScript, Object Oriented Programming, Rest, Agile methodologies, MongoDB / Mongoose, Express, React.js, Node.js, GO and Python. Developed projects, include:
- The Healing Chi: An interactive full stack website for non profit mens yoga organization built with React, MongoDB, Express, Node, Tailwind CSS, and Framer-Motion.
- Apply: An application and interview tracker app to store interview specific information such as, contact information, dates, and technical notes for all jobs you have applied to. This full stack app was built with React, MongoDB, Express, Node, Tailwind CSS, and Framer-Motion.
- Retrospective: A film photography and video sharing app built with React, MongoDB, Express, Node, and Bootstrap.
- Emoji Matchup: A matching card game built with Javascript, HTML, and CSS.

PROFESSIONAL/WORK EXPERIENCE
EFCO Corporation   June 2012 - Present
Regional Field Service Coordinator, Hybrid/Remote
- Responsible for processing customer complaints arising from my assigned region and coordinating efforts with the responsible parties to resolve field issues.
- Oversee crews on various projects as they implement remedial work to fix field issues.
- Plan, schedule and execute all customer inquiries. Perform fabrication, assembly, and testing to meet industry standards.
- Work with engineers to confirm root cause analysis on field issues and help develop long term solutions for current problems.
- Prepare testing and/or job reports to present root cause analysis and remedial solutions to the EFCO engineering team.

Lefty's Pump and Drilling   June 2004 - June 2012
Drilling/Service Technician, Crane, MO
- Efficiently and safely operate drill equipment and perform to the highest quality level.
- Performance of electrical diagnostic testing.
- Coordinate with the office manager to review/fix customer issues and schedule new installations.

EDUCATION
General Assembly, Remote
Certificate, Software Engineering Immersive (SEI)   December 2021 - June 2022
